aluproff

SINCE 1949

ART. 2500, RED VIOLET.

WE BELIEVE IN PURPOSEFUL GROWTH

Before digging into our 2022 catalogue, we want to share with you a few brief thoughts on our philosophies and ambitions for the coming years. At Aluproff we are very conscious about our social and environmental responsibility and believe that we as a company can be a driving force for positive change. Our mission is to create a healthy and sustainable workplace while minimizing our environmental footprint.

This is both in terms of our products, where we've proudly launched our own sustainable product series called SUSTAIN, but most importantly in the very way that we act with responsibility as a company.

In 2021, we've adopted the UN's World Goals for Sustainable Development (SDG) as the foundation of our continued effort with the triple bottom line, where we've decided to focus on 4 of the global goals which we can directly or indirectly influence through our core business.

*No. 8 - Decent work & economic growth
No. 12 - Responsible production & consumption
No. 13 - Climate action
No. 17 - Partnerships for the goals*

Collectively, we have named our philosophy PURPOSEFUL GROWTH and have introduced it in every aspect of how we develop, produce, sell and supply our curtain systems.

Finally, we are truly excited to reveal that we are currently in progress to become a certified B-corp company. We will own up to our responsibility for change.

Hansen.

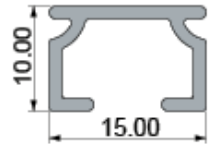

Thomas Trads Hansen, Owner.

ALUPROFF AMBIENCE LED

ART. 1905 PIET HEIN, BLACK.

AMBIENCE LED

Aluproff's innovative LED light for curtain rails creates ambience and highlights the curtain fabric. Our system allows you to control the light with your smartphone and thus use the lighting for both ambience and as an anti-theft device or energy-efficient night light. LED light is currently offered for our AP 1100 curtain rail or our Piet Hein Superellipse curtain track, which is the first in the world to have been created with a separate LED groove.

The LED lighting system with io adapter is smart home compatible through the Somfy TaHoma® hub, which links to popular voice assistants such as Google Home and Amazon Alexa.

SPECIFICATIONS

- **Brightness:** 970 lumen
- **Colour rendering:** 96.
- **Dimmable:** Yes.
- **Expected lifetime:** 44.000 hours (5 years).
- **Type:** COB LED light 10 W/m.
- The LED strip comes with 384 diodes per meter, giving the impression of one long light.
- **Resizing:** Cutting marks every 4 cm.
- **Installation:** 3M adhesive tape on one side for easy application.
- **Power supply:** 255 cm 24 V wire or 155 cm 230 V wire.
- **Colours (hardware):** White, black.
- **Brightness:** 3000 K (warm white) or 4000 K (natural white).
- **FCR I9 0, 378 LED, 24 V DC, 8 mm IP20.**

Available for integration in profiles AP 1100 and AP 1905 Piet Hein.

ALUPROFF 1100 / 1121

1100 / 1121

AP 1100 is the minimum sized curtain track for a heavy duty project. The smooth curves and strong "wings" makes the AP 1100 profile ideal for professional mounting purposes. The 1100 profile also has the option of adding our innovative LED lights. The 1121 profile comes with holes, giving the option of fitting it directly into the ceiling.

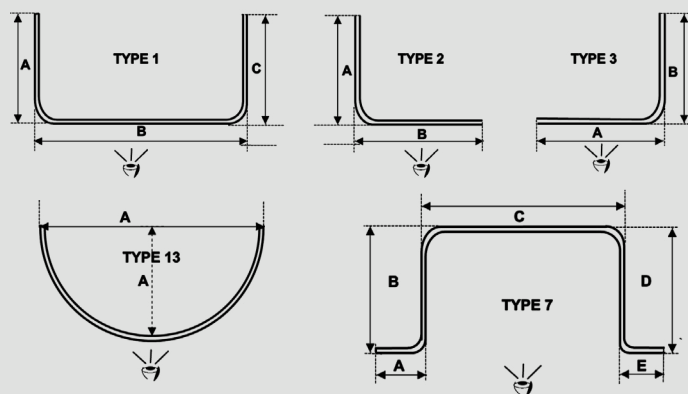

SPECIFICATIONS

- **Curtain track:** 1100
- **Use:** Curtain tracks with light to heavy curtains
- **Mounting:** Hidden ceiling bracket and wall brackets.
- **Material:** Aluminium alloy 6060/T6
- **Powdercoating:** 100 - 130 my
- **Accessories:** Plastic/metal
- **Track width:** 6,0 mm
- **Ext. dims.:** Height 13,75, top width 19,45, bottom width 16,20
- **Length:** 6000 mm
- **Thickness:** 1,0 -1,2 mm
- **Max. load:** 4.5 - 15 kg (see sep. table)
- **Bending:** Min. radius 10 (recommended)
- **Milling:** Yes
- **Webster:** No B minimum 11
- **Colours:** White, black

All NCS & standard RAL colours available per request at additional cost.

Available with integrated ambience LED light.

ALUPROFF 1600

1600

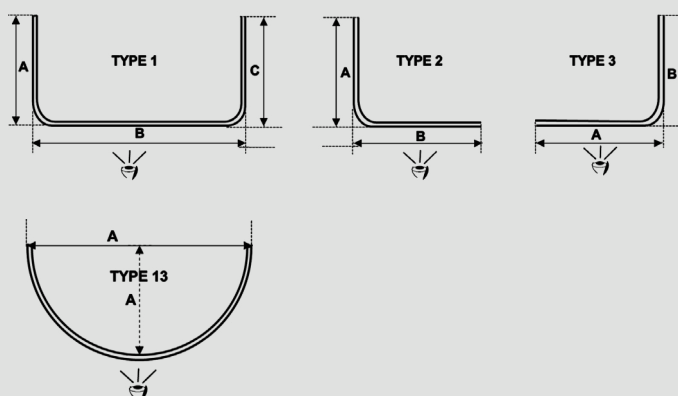

AP 1600 is a cord operated track for both the domestic and contract market. It has smooth, elegant curves and strong wings. Bending Radius 11.

SPECIFICATIONS

- Profil no: 1600
- Use: Cord Operated track
- Mounting: Click bracket
- Material: Aluminium alloy 6060/T6
- Powdercoating: 100 - 130 my
- Accessories: Plastic/metal
- Track width: 6,0 mm
- Ext. dimensions: 20 mm x 14 mm
- Length: 6000 mm
- Max. load: 4.5 - 12 kg (see sep. table)
- Bending: Min. radius 11 (recommended)
- Webster: No B minimum 11
- Recommended glider: 5738, 5722, 1050223, 1050224, 14058
- Colours: White, black

All NCS & standard RAL colours available per request at additional cost.

ALUPROFF LED LIGHTING

Aluproff's innovative LED light for curtain rails creates ambience and highlights the curtain fabric. Our system allows you to control the light with your smartphone and thus use the lighting for both ambience and as an anti-theft device or energy-efficient night light.

LED light is currently offered for our AP 1100 curtain rail or our Piet Hein Superellipse curtain track, which is the first in the world to have been created with a separate LED groove.

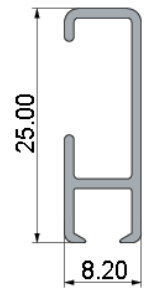

AVAILABLE FOR AP 1100 & 1905 PIET HEIN

SPECIFICATIONS

- COB LED strips, warm white, 3000K, 10 Watt /m.
- FCR I9 0, 378 LED, 24 V DC, 8 mm IP20.
- Brightness: 970 lumen
- Colourrendering: 96.
- Dimmable: Yes.
- Expected service life: 44.000 hours (5 years).
- The LED strip comes with 384 diodes per meter, giving the impression of one long light.
- Cutting marks every 4 cm.
- The strip has a 3M adhesive tape on one side for easy application.
- The power supply comes with a 255 cm 24 V wire or a 155 cm 230 V wire.

ALUPROFF 2001

2001

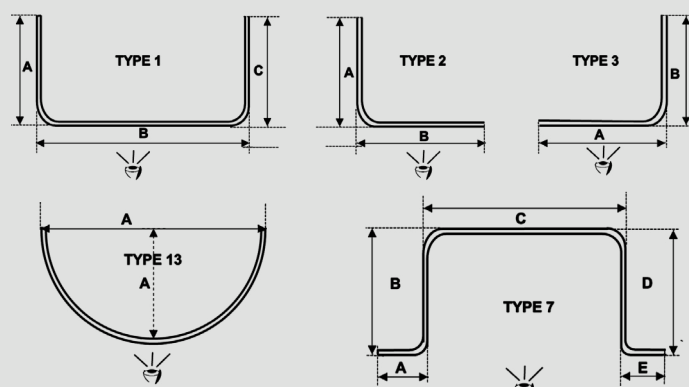

The AP 2001 (4 mm) glider track is discrete and stylish, designed for light weight curtains. The very first AP edition was extruded back in 1983 and have ever since been the preferred solution for lighter curtains.

SUSTAIN

INTRODUCING ALUPROFF SUSTAIN

As part of working with responsible consumption and production we have reached an important milestone with the launch of a continuously growing sustainable product series under the name "SUSTAIN".

All products labelled with our SUSTAIN logo are made from sustainable materials, ethically manufactured, produced with low CO₂ emissions and are fully recyclable. This is our future.

The biggest advancement in our current SUSTAIN portfolio, is our new Hydro CIRCAL® tracks, made from at least 75% post-consumer materials.

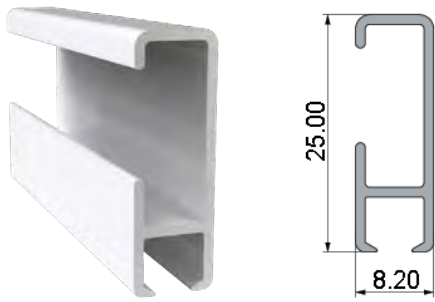

CHOOSE RESPONSIBLY AND
LOOK FOR THE AP SUSTAIN LOGO.

SUSTAINABLE CURTAIN TRACK

2001 CIRCAL®

The 2001 CIRCAL® rail is a sustainable version of our classic, marketleading AP 2001 rail. 2001 CIRCAL® rail is extruded in Scandinavia by Norsk Hydro, and is made of Hydro CIRCAL® 75R aluminum, with a minimum of 75% reused aluminum post-consumer materials. Hydro CIRCAL® 75R aluminum has a record low CO₂ footprint of 2,3 kg per kg aluminum produced, a massive 87% reduction from the global average of 18 kg.

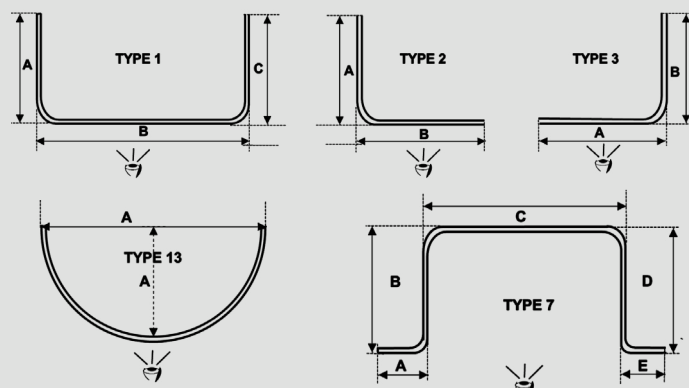

SPECIFICATIONS

- **Curtain track:** 2001 CIRCAL
- **Use:** Curtain and picture hanging track
- **Material:** HYDRO CIRCAL 75R
- **Track length:** 6000 mm
- **Max. load:** 3.5 - 8 kg (see sep. table)
- **Bending:** Min. radius 10 (recommended)
- **Milling:** Yes
- **Mounting:** Ceiling, wall
- **Ceiling support:** Yes
- **Powder coating:** 100 - 130 my
- **Accessories:** Plastic/metal
- **Track width:** 4,0 mm
- **Ext. dims.:** 8,2 mm x 25 mm
- **Thickness:** 1,0 - 1,2 mm
- **Recommended glider:** 4050
- **Wave glider:** 4041 and 4042
- **Colours:** White, Super Silver, gold (anodized), bronze (anodized), black

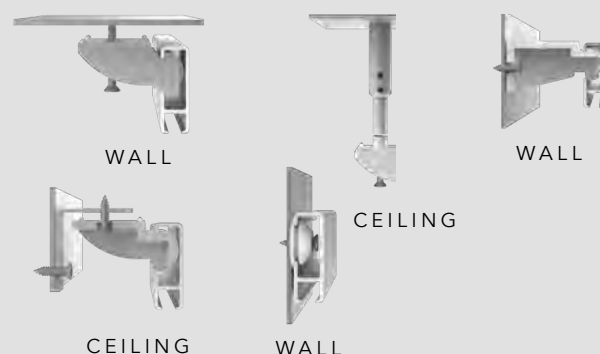

All NCS & standard RAL colours available per request at additional cost.

Additional data on Hydro CIRCAL® 75R can be provided upon request.

ALUPROFF 2500

2500

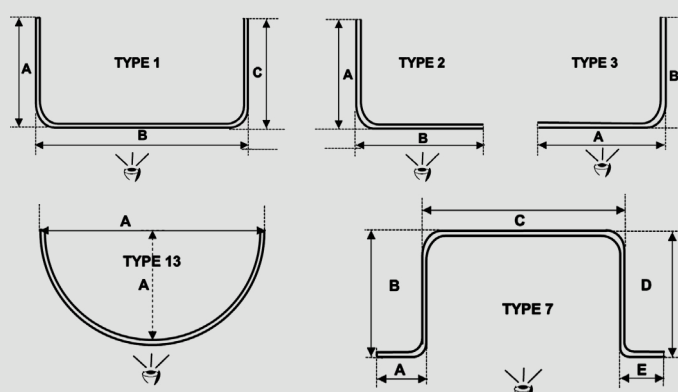

The AP 2500 (6 mm) curtain track is strong and stylish, designed for medium-heavy curtains. The very first AP 2500 edition was extruded back in 1983 and have ever since been the preferred solution for medium-heavy curtains. The easy gliders 5721 & 5722 give the lowest possible friction.

SPECIFICATIONS

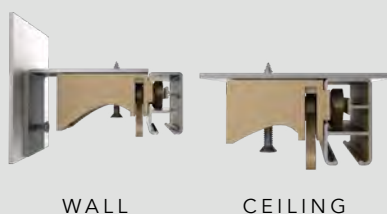

- **Curtain track:** 2500
- **Use:** Curtain for light to heavy fabric
- **Mounting:** All brackets, supports and ceiling/wall brackets
- **Material:** Aluminium alloy 6060/T6
- **Powdercoating:** 100 - 130 my
- **Accessories:** Plastic/metal
- **Track width:** 6,0 m
- **Ext. dims.:** 14,20 mm x 26 mm
- **Length:** 6000 mm
- **Thickness:** 1,0 - 1,2 mm
- **Max. load:** 7 - 14.5 kg (see sep. table)
- **Bending:** Radius 10
- **Milling:** According to specs
- **Webster:** No B minimum 11
- **Recommended glider:** 5734, 5738, 5721, 5722, 6025

ALUPROFF 2668 / 2694 / 2690 CIRCAL®

NEW

SUSTAINABLE PELMET TRACKS

2668 / 2694 / 2690 CIRCAL®

A cornice can be used alone or as a finishing touch to curtains or other window treatments, offering a clean, tailored look, which integrates the whole space cohesively. Our pelmet tracks come in 3 sizes and can be made to measure. We are now producing them in Hydro CIRCAL® 75R reused aluminum, thereby introducing the first sustainable pelmet tracks.

SPECIFICATIONS

- **Pelmet track:** 2668 / 2699 / 2690 CIRCAL®
- **Use:** For 63/ 89/ 127 mm vertical slats
- **Material:** Hydro CIRCAL® 75R
- **Length:** 6 m
- **Bending:** Radius 10 only
- **Webster:** No B minimum 11
- **Milling:** No
- **Mounting:** All brackets, supports and ceiling/wall brackets
- **Powder coating:** 100 - 130 my

ALUPROFF SAFETRACK

ALUPROFF SAFETRACK

Our specially developed range of anti ligature accessories, AP Safetrack, fullfills international requirements and standards. AP Safetrack works with the 5001 profile and is developed for installation in public, private, and psychiatric hospital areas. Safetrack is recommended for all kinds of installations with ceiling suspensions and wall brackets.

To avoid any self harm or in extreme cases, loss of life, the Aluproff Safetrack is designed to release from its fixation points (brackets & suspensions) at an average pull of approx. 20 kg. Safetrack (pat.pend) has been tested and certified by the Danish Technological Institute.

ALUPROFF 5738 ST RED & GREY

RED AND GREY

AP 5738ST anti ligature gliders fulfill the requirements and standards of mental care facilities. Developed for installations in public, private, and psychiatric hospital areas. Recommended for hospital track 5001 only. To avoid any self harm or in extreme cases, loss of life, the red and grey gliders are designed to release easily from the track.

SPECIFICATIONS

- **Use:** 6 mm track
- **Tracks:** AP 5001
- **Material 1:** Nylon and POM
- **Material 2:** UV-protection.
- **Red weight release:** By a pull of 12 kg
- **Grey weight release:** By a pull of 8 kg

MOUNTING OPTIONS

Place two red gliders as the first two gliders in the track. Then place a red glider as the last one, and if possible on the outside of the stopper.

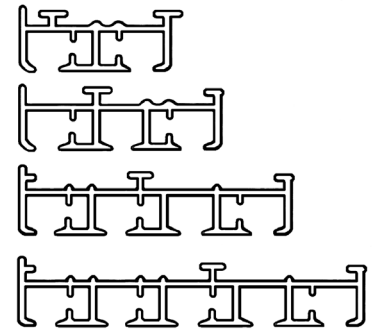

The remaining gliders 5738 ST grey are placed between these two positions.

A maximum of 10 gliders per meter rail is recommended.

Hydro Circal®

SUSTAIN
sustainable
products

SUSTAINABLE CURTAIN TRACK

5408 CIRCAL®

Our 3-glide curtain track for the contract market. 5408 is very popular for hotel projects and as a new feature it is now made of Hydro CIRCAL® 75R aluminum, with a minimum of 75% reused aluminum post-consumer materials. Hydro CIRCAL® 75R aluminum has a record low CO₂ footprint of 2,3 kg per kg aluminum produced, a massive 87% reduction from the global average of 18 kg.

SPECIFICATIONS

- **Curtain track:** Profile no 5408
- **Use:** Ceiling-mounted curtain rod with three tracks
- **Mounting:** Direct ceiling with screws
- **Material:** Hydro CIRCAL 75 R
- **Powdercoating:** 100 - 130 my
- **Accessories:** Plastic/metal
- **Track width:** 3 x 6,0 mm
- **Ext. dims:** 91 mm x 8 mm
- **Length:** 40000 and 6000 mm
- **Thickness:** 1,0 - 1,2 mm
- **Max. load:** 6 - 13 kg (see sep. table)
- **Bending:** No
- **Milling:** No
- **Webster:** No B minimum 11
- **Recommended glider:** 5738, 1307, 5734, 5735, 5730
- **Colours:** White

All NCS & standard RAL colours available per request at additional cost.

Additional data on Hydro CIRCAL® 75R can be provided upon request.

MOUNTING OPTIONS

The 5408 CIRCAL profile is mounted directly into the ceiling.

No brackets available.

No pre-drilled holes but a drill line in the profile.

NEW

JOTUN WALL COLOUR MATCH

Curtain rails can be discreet and almost invisible, but they can also complement your interior decoration.

In collaboration with Jotun, we offer laquering of all our curtain rails in the current Jotun Lady colour palette, making a complete or tone-on-tone match between wall and curtain track possible.

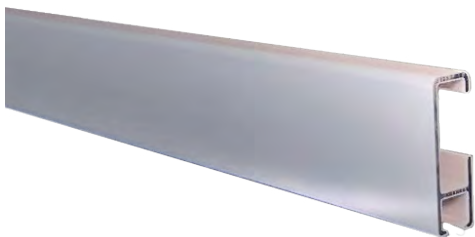

Together, Jotun and Aluproff offer a completely unique universe of colours and design. Just ask for the Jotun LADY colour in question.
AVAILABLE FOR ALL RAILS & BRACKETS

- No minimum order quantity

JOTUN SUPER SILVER

JOTUN SUPER SILVER

We all know that anodizing makes the gliders move a little less smoothly in the track. Therefore, we are gradually phasing out our anodized rails in 2021, and replacing these with silver-lacquered rails, which not only retains the beautiful silver hue of the surface, but also enhances the functionality of the rail.

We use silver laquer from Norwegian paint experts JOTUN, and thus we call the colour Jotun Super Silver. By laquering instead of anodizing our silver tone rails, an optimized lubricity with least possible friction - and a more environmentally friendly processing than our prior one - is ensured.

SPECIFICATIONS

- **Colour:** Jotun Super Silver
- **Powdercoating:** Polyester lacquer
180 my - min 100 my
- **Accessories:** Plastic/metal, not in the exact same shade as the profiles
- **Webster:** No B minimum 11

BATTERY MOTOR FOR ROMAN BLINDS

BATTERY MOTOR FOR ROMAN BLINDS

No need for wires when choosing motorised roman blinds systems. Aluproff roman blind cassette system 8901 integrates with the Somfy battery motor and can be used with the Tahoma box to enable use with smartphones and tablets. Roman blinds have a classic, attractive appearance, which suits both modern and traditional homes. The large horizontal pleats fold away neatly when your blind is operated.

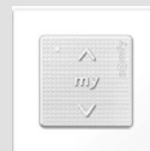

BENEFITS

- Roman blinds have an attractive pleated appearance
- Motorised operation ensures fabric is folded evenly
- Enhanced comfort from remote controlled operation
- Add sensors or timers to automatically operate your blinds.
- The 'my' button moves the blind to your preferred position

ALUPROFF CHILD SAFETY

Child safety is a top priority for us, as it is extremely important that our products can be used safely in homes with young children.

Our anti-ligature accessories comply with the European standard EN 13120, which requires indoor window treatments, installed in premises where children from 0 to 42 months are present, to be provided and mounted with anti-ligature devices. We are constantly developing new products, to help minimize the risk of accidents, and have already several patented products in our portfolio.

1522:

This design toggle is thoroughly tested, and gives both an easy way to hook in the product into a tunnel tape loop, and a very efficient and fast adjustment of your roman blind. The patented toggle has a high value to you as a producer of the blind as well as to the fitter when adjustments are to be made on site.

Furthermore the end user has a tested and approved child safety product in the blind that meets the market demands and regulations, not to forget safety to the young ones. All these benefits are now met by the toggle 1522 with hook.

3909:

Wall mounted to make cord/chain hang tight along the wall, making it impossible for children to get the cord/chain around the neck. In addition, you avoid the cord or chain winding vertically.

3021:

This article is a chain break-away. It is triggered by a pull of 6 kg, and will therefore "break" if a child wraps the chain around the neck while falling e.g. down from the window sill.

1454:

Two cleats must be securely attached to the wall, at least 10 cm from each other and at least 150 cm above the floor. The cord is then wrapped around the cleats. See instruction.

3215:

Cord connector with break-away effect at about 1 kg. During pull in the cord connector, all the cords remains (up to 6 cords at a time) in the cord connector. Should a child get its head entangled between the cords, the cord connector easily breaks in half, and the child thus avoids strangulation. The two halves can be assembled again for further use.

1518:

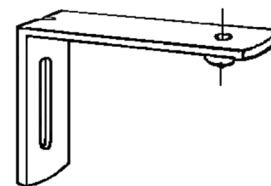

Adjustable cord lock with cord-slip-away effect at 2 kg. You know this device from bags, hoodies and anoraks. You can lightly press the button, to create space for the cord, to be adjusted up and down. When you release the button, the spring creates tension on the cord, thereby locking it. The cord lock is tested to not being able to lock more than 3 kg load, and therefore can be used beneficially as a safety device on Roman blinds, where many cords are to be adjusted and fastened on the back side of the curtain.

ALUPROFF HOOKS

Our plastic hooks have been produced in Denmark since 1974 and currently the 3rd generation of our unique Aluproff steel mold makes 37,000,000 units per year.

The raw material is of the highest quality, an area where we would never compromise, as this is a vital part of the curtain's function.

Our Danish craftsmanship traditions and quality testing procedures ensure a stable and homogeneous product, which has minimal impact on the environment: Transport is domestic, production local and packing is done manually.

HOOKS

Hooks for multiple purposes - suitable for all curtain tapes and gliders.

SPECIFICATIONS

- **Use:** For curtain tapes
- **Material:** Plastic/metal

ALUPROFF TEE GLIDERS

TEE GLIDERS

The unique form of the tee glider's body reduce the friction inside the profile to a minimum, even with heavy curtains. This means that our tee gliders are very low noise.

With both the Medium Duty & Heavy Duty tee glider you will experience a new glide effect with your old rails. Aluproff gliders are produced with a silicone percentage to the total plastic mass, which is released throughout the glider's lifetime. This makes AP gliders easy gliders, and gives them the best functionality on the market.

5721

- Medium Duty Tee glider for 6 mm track, 10 pcs on a string.
- Rec. Max Load: 8 kg

ALUPROFF PERFECT WAVE SYSTEM

PERFECT WAVE SYSTEM

Ripplefold curtains are beautiful, elegant and super trendy - and we have everything you need to make those waves just perfect. Our wave hangers, wave gliders, wave stoppers and wave tape all come together to create perfect aesthetics and functionality, and with our drapery draw rods you're in full control of the wave curtains.

WAVE HANGER

Our Wave hanger is a small but important tool: it supports the first and the last pleat of the curtain, ensuring the ripple is even from end to end.

For 4 mm & 6 mm glider tracks, it comes in black and white UV protected nylon and POM.

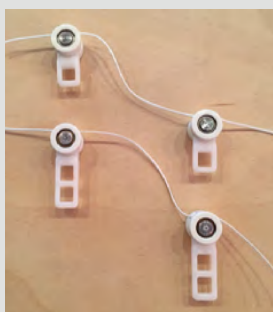

WAVE STOPPERS

Our innovative and popular wave stopper, art. no. 4761, lovingly called "The Curtain Bug", will stop the curtain from gliding back, when the curtain is drawn. Comes in 4 colours.

WAVE TAPE

Our wave tap, art. no. 4758, comes in black and transparent. It is easy to work with and though lightweight, very durable and strong.

WAVE GLIDERS

Our regular wave gliders come in 6 cm and 8 cm in black and white. Our turnable head gliders and wave roller gliders come in white, as does the groundbreaking steel ball bearings roller glider 8020W for hand drawn and 8021W for motorised heavy duty systems.

DRAW RODS

We have a variety of plastic coated drapery pull rods for that final touch to draw the curtain without touching the precious fabric. Ranging from 50 cm to 250 cm, in the colours black or white, you are sure to find your best choice for operating your hand drawn wave curtains here.

SOMFY MOTORISED TRACKS

GLYDEA ULTRA WIRED TRACK (60 KG)

The Glydea® system is an industry-leading motorised curtain track system produced by Somfy and developed over many years of experience and expertise. The Glydea® Ultra motor offers a superior wired solution with a wide array of user-friendly features. The motor has a weight capacity of up to 60 kg, and is operated through either 1 to 16 channel remote controls or by switch. As an optional extra, we also offer a remote controlled ambience LED clip-on track for the system.

The Glydea® system with RTS motor is smart home compatible through the Somfy TaHoma® hub, which links to popular voice assistants such as Google Home and Amazon Alexa.

SPECIFICATIONS

- **Curtain track:** 1781379
- **Operation:** Remote controlled
- **Mounting:** Twist bracket for ceiling
- **Material:** Aluminium alloy 6060/T6
- **Powdercoating:** 100 - 130 my
- **Accessories:** Plastic/Metal
- **Track width:** 6.0 mm
- **Ext. dimens.:** 30.6 x 25 mm
- **Length:** 6000 mm
- **Thickness:** 1.2 - 1.6 mm
- **Bending:** Min. radius 30 (recommended)
- **Milling:** According to specs
- **Recomended gliders:** 8626, 8021
- **Recomended wave gliders:** 8625, 8627, 8021W
- **Colours:** White, black

All NCS & standard RAL colours available per request at additional cost.

MOTOR SPECIFICATIONS

- **Power supply:** 100 - 240V ~ 50/60 HZ
- **Max. load:** 60 kg
- **Sound level:** 38 dBA in silent mode
- **Linear speed:** 12.45 cm/s - 19.96 cm/s (7.49 cm/s in silent mode)
- **Rated torque:** 1.0 nm
- **Wireless protocol:** Somfy RTS (Radio Technology)
- **Wired options:** DCT (Dry Contact) / WT (Wired)
- **Power usage:** 60W
- **Colours:** Silver

BESPOKE BENDING

Shape your rail to fit your purpose with one of our standard bends, or ask us about our specialty bending options. We bend even the most complicated solutions on request.

GUIDING MAX. LOAD TABLE

All of our tracks are rated with a guiding max. load for when it comes to how much and how heavy fabrics to mount onto them. Use the table below as a starting point to choose the right rail for your need.

If the guided max. load for the given track is exceeded, Aluproff can not guarantee the advertised functionality.

DISCLAIMER

All max. load indications are guiding as many factors are at play for determining how heavy load our tracks are able to carry - *here amongst the type of surface which is mounted on, type of screws and plugs, type of glider and amount of brackets used.*

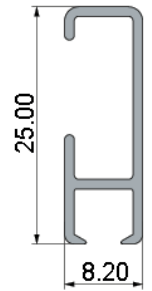

Aluproff are not accountable for the usability and functionality of the track if the max. loads are exceeded, or if improper mounting / improper use has affected the functionality of the track.

PLEASE NOTE If the track is bent or milled, the recommended max. load is halved. By example a 1 meter long AP 0520 track with a bend will have a max. load of 3 kg rather than 6 kg. when bended or milled.

		1 METER	2 METERS	3 METERS	4 METERS	5 METERS	6 METERS
0520 / 0521	HAND DRAWN	3	4	5	6	7	9

ALUPROFF 2001 SHOWER TRACK

2001 SHOWER TRACK

Our AP 2001 shower track is a luxury shower rod model. It comes as a complete set with ceiling support, gliders and hooks. With a ceiling support the track is firmly and easily attached to both the ceiling and the wall, and the curtain moves effortlessly around the bent rails with our gliders. Choose between one of three prepackaged sets as you desire.

SPECIFICATIONS

1231

2001 shower track set in a bag, complete rail with ceiling support, gliders and hook. With a bent and a straight rail which are assembled to 90 x 90 cm.

1232

2001 shower track in box gasket, complete with ceiling support, gliders and hook. With two bent and one straight rail which are assembled to 3 x 90 cm.

1233

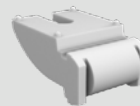

2001 shower track in box gasket, complete with ceiling support, gliders and hook. With one bent and two straight rails which are assembled to 90 x 170 cm.
